Access systems

bebarmatic®

Access control with contactless reader (RFID).

Access control 6.6 for one contactless reader MinDis

Features

- *Aluminum compact housing with LCD display and keyboard*
- *Storage capacity for up to 1600 cards*
- *Insertable reservation non-repeat lock (1 - 30 min)*
- *Operational readiness level entrance*
- *Supply voltage 12 - 24 VDC*
- *Dimensions: 110 x 80 x 35 mm*
- *Type of protection: Reader head IP 65*

Option:

*Access control system 6.7
for one or two contactless reader MinDis*

Features

- *Aluminum compact housing with LCD display and keyboard*
- *Storage capacity for up to 5000 cards*
- *Insertable Anti Pass Back (APB) prevents against misuse by repeated entry*
- *APB resetable by clock*
- *Up to 4 time zones*
- *Insertable reservation non-repeat lock (1 - 30 min)*
- *Operational readiness level entrances*
- *Supply voltage 12 - 24 VDC*
- *Dimensions: 190 x 125 x 45 mm*
- *Type of protection: Reader head IP 65*

RFID Technologie

Contactless reading systems have superseded the magnetic stripe technology which has predominated for decades – they are completely free of wear, suitable for indoor and outdoor areas – passive identification in credit card format, without battery at a reading distance of up to 5 cm.
